Dear Parents,

Numeracy @ MTP is a website that has been designed to assist mathematical thinking and numeracy development at home.

Click [here](#) to go to the website.

This resource is comprised of three key elements:

MTP's Numeracy Goal & Addition and Subtraction Strategies

What are the mathematical strategies that your children engage with each day?

This page gives an overview of our school's numeracy goal and a student-led explanation of the strategies that will help our community achieve success.

How can I prepare my child for primary school mathematics?

As the title suggests, we believe that mathematical thinking and attitudes begin to form before kindergarten. This is the essential guide to support parents of preschool children.

Learning @ Home Activities

Within are some activities and questions aimed to enhance the mathematical thinking and conversations at home.

“Silence will teach us a lot. It will teach us to speak with Christ and to speak joyfully to our brothers and sisters.”

St Mother Teresa

MTP Twilight Swimming Trials

Will you be here in 2017?

As we prepare to plan for 2017, we are asking parents that if their child is not returning to school next year, could you please inform the office in writing by the end of next week.

ALL SOULS – The Power of Memory

Gathering at a funeral, or on an anniversary, at a family get together, and so many occasions we celebrate as a people are bound around memory. The sharing of memories and stories. Richard Leonard SJ, speaks of the human soul as memory. This means that, “when I meet God face to face, I will remember who I am and how I lived, and God will remember me.” During this month we pray for and remember those departed souls we have

known and loved, and ask that they may also pray for us, that we never forget God’s saving love in our lives. May we honour our dead in the way we live each day.

May perpetual light shine upon them, may they rest in peace.

Catherine McAuley Dance Performance

This term, students from Kindergarten to Year 6 have been studying Dance for Creative Arts and Physical Education. The Dance unit specifically focused on the elements of performance, composition and appreciation. To give students a greater understanding of how these elements are put into practice, students watched performances from the Year 9 and Year 11 Dance classes from Catherine McAuley. Our students were amazed at the skill level of the dancers and asked many questions about how the dance was created.

Thank you to Ms Smith and the students from Catherine McAuley for the wonderful experience.

MTP 2017 Swimming Trials

Students from Years 2 to 5 have received a note for the MTP swimming trials that will be held on Thursday, 10th November 2016 after school hours. I would like to remind parents that this is an event only for students who are **very competent at swimming 50 metres** in their chosen stroke. It is expected that students who attend this event, train at a squad level outside of school. Further information about the event can be found in the permission note.

Thank you for your co-operation.
