

Pro active learner policy

what we believe

01

We support student success by using our SCHOOL WIDE EXPECTATIONS TEACHING MATRIX

02

All areas of MTP are learning & teaching environments

03

We frame our learning around:
I care for myself
I care for others
I care for the environment

How?

Teaching

We teach & make explicit our community expectations for students, staff & the community

Connecting

Making links to our SLQs - Passionate, Creative, Collaborative, Compassionate & Reflective

Supporting

'Merit Postcards' are sent home on a weekly basis

Motivation

We strive to focus on 'intrinsic' motivators. We do not use extrinsic rewards, eg stickers. We use praise and positive feedback that is sincere, timely, and specific.

Children who are motivated intrinsically

- * exhibit a desire to learn
- * pursue a subject for the pleasure of learning or for a feeling of accomplishment
- * tend to prefer challenging tasks and to understand information in depth.
- * choose projects that demand greater effort than extrinsically motivated children who usually work to receive some reward or to avoid a penalty.
